

- 24V battery starter for light goods vehicles, lorries, tractors, excavators and 12V for cars, vans, boats, generators, etc. With positive-negative cables with clamps and T-Charge 12 battery charging of the product.
- The 12V output is a source of energy in the event of emergencies; connected to the cigarette lighter of the vehicle, it powers all the circuits in battery changes on vehicles with 12V batteries.
- Does not damage the vehicle electronics and allows numerous cranking operations before resulting charge.

TECHNICAL DATA

CODE	829570	BATTERY CAPACITY	40 / 20 Ah	DIMENSIONS (LxWxH)	30,5 x 36 x 63 cm
CHARGE MAINS VOLTAGE 1ph	230 V	STARTING CURRENT	1600 / 800 A	WEIGHT	30 kg
CHARGE MAINS FREQUENCY	50 / 60 Hz	MAX STARTING CURRENT	4400 / 2200 A		
STARTING VOLTAGE	12 / 24 V	.	200 / 150 Ah		

SUPPLIED ACCESSORIES

125017	EYELETS PATCH CORD
125018	CLAMPS PATCH CORD

DESCRIPTION

Battery-powered starter suitable for 24V starting of trucks, vans, tractors and 12V starting of cars, vans, boats, power sources, etc.

The 12V output is a power source for use in emergencies; when connected to the cigar-lighter outlet it maintains the voltage on all circuits during battery changes of vehicles with 12V batteries.

It does not damage the electronics of the vehicle and allows for a large number of starting operations before being recharged.

Start Plus can be recharged using the battery charger T-CHARGE 12 included in the package (for the safeguard of the battery, charge for 12 hours before use, charge again after each use and every 3 months in any case).

Complete with positive-negative cables with clamps.
