

* The reducer gear on the oil drum truck is manufactured with the latest standard technology, which makes the performance more stable and the gear more wear resistant and durable.

COT TYPE TILTING BARREL FORKLIFT

* The tilting oil barrel forklift has novel design, reasonable mechanism and convenient use. The drum can be flipped and stayed in the air for more than 180° after lifting. Greatly improve the work efficiency, reduce the labor intensity of workers.

* The tilting drum forklift is suitable for the loading and unloading, handling and stacking of drums in factories, workshops, warehouses and oil depots. It can also be modified for loading and unloading and lifting cargo, is a new ideal, multi-purpose drum handling machinery.

PRODUCT FEATURE:

- * Easy control of the reducer
- * Unique multi-functional design
- * Can Handle 250L (55Gallon) Steel Drums
- * Smart left and right locking handle design

Model	COT0.35
Load lifting capacity(kg)	350
Lifting height(mm)	1400
Overall dimension(mm)	1190X890X2000
Self weight(kg)	160
Overall height(mm)	2020

* The eagle clip on the drum truck is forged by high quality steel plate, the chuck can be tightened through move the steering by your hand, which can fix the oil drum quickly and firmly without falling off.

* The high quality oil cylinder and seal ring greatly improve the sealing performance of the cylinder, reliable quality and stronger bearing capacity.

* The oil drum truck adopts high-quality thickened transmission chain to ensure the safe operation of the oil drum truck during the operation.
